## ABOUT ME

Passionate Java/Kotlin full-stack engineer with 4+ years' experience building scalable, serverless, containerized cloud applications using Microservices, Spring, Micronaut, Quarkus, SvelteKit, and VertX.

Experience with databases (DynamoDB, MariaDB, PostgreSQL, MySQL) and front-end frameworks (React, Vue, SvelteKit). I have experience using Katalon and scenario tests in professional projects.

I enjoy solving real-world problems, learning new technologies, collaborating with teams, and contributing to open source.

## WORK EXPERIENCES

### iConec Wave (Istanbul/Fully Remote)

Feb 2022 – Present | Full-Stack Software Engineer

Java | React | TypeScript | Spring | AWS | Katalon

I develop and maintain Microservices architecture based on AWS web services for renowned French client Royal Canin, handling bug fixes and enhancements from factory packaging to end-user delivery.

### Kod Gemisi (Turkey/Fully Remote)

Oct 2021 – Jan 2022 | Intern

Kotlin | MicronAut | Hexagonal Architecture

During my internship, I enhanced scenario tests, built web services, and fixed bugs.

### Statu (Turkey/Fully Remote)

Jan 2020 – Sep 2021 | Back-End Developer (contract)

Kotlin | Vert.X | Docker | ClickHouse

During my studies, I contracted with Statu Inc. to develop enterprise back-end software using Kotlin/Java, VertX, Docker, and ClickHouse DB.

### General Mobile Inc. (Istanbul/In Office)

Nov 2017 – Aug 2018 | Junior Android Developer

Kotlin | Java | Android | MVVM | MVC | MVP

During my work experience, I created an Android applications and collaborated with six teammates to develop additional apps now used by millions in 30 countries.
