ABOUT ME

Passionate Java/Kotlin full-stack engineer with 4+ years' experience building scalable, serverless, containerized cloud applications using Spring, Micronaut, Quarkus, SvelteKit, and VertX.

Experience with databases (DynamoDB, MariaDB, PostgreSQL, MySQL) and front-end frameworks (React, Vue, SvelteKit). I have experience using Katalon and scenario tests in professional projects.

I enjoy solving real-world problems, learning new technologies, collaborating with teams, and contributing to open source.

WORK EXPERIENCES

iConec Wave (Istanbul/Fully Remote)
Feb 2022 – Present | Full-Stack Software Engineer

Java | React | TypeScript | Spring | AWS | Katalon

I develop and maintain AWS-based web services for renowned French client Royal Canin, handling bug fixes and enhancements from factory packaging to end-user delivery.

Kod Gemisi (Turkey/Fully Remote)
Oct 2021 – Jan 2022 | Intern

Kotlin | MicronAut | Hexagonal Architecture

During my internship, I enhanced scenario tests, built web services, and fixed bugs.

Statu (Turkey/Fully Remote)
Jan 2020 – Sep 2021 | Back-End Developer (contract)

Kotlin | Vert.X | Docker | ClickHouse

During my studies, I contracted with Statu Inc. to develop enterprise back-end software using Kotlin/Java, VertX, Docker, and ClickHouse DB.

General Mobile Inc. (Istanbul/In Office)
Nov 2017 – Aug 2018 | Junior Android Developer

Kotlin | Java | Android | MVVM | MVC | MVP

During my work experience, I created an Android applications and collaborated with six teammates to develop additional apps now used by millions in 30 countries.

EDUCATION

University Of Pécs - Hungary
Computer Science (BSc)

PROJECTS

Parsek >> parsek.dev | Since Dec 2023
Kotlin, Clickhouse

An open-source modular back-end written in Kotlin.

Rule AI | Dec 2023 - Oct 2024
Coolify, Parsek, Kotlin, Clickhouse, Linear, RabbitMQ, OpenAI

An AI platform for content generation and enhancement for e-commerce product owners.

iConec Wave - Royal Canin
AWS, Spring, Java, Serverless, PostgreSQL, DynamoDB, S3

Royal Canin is a famous French cat & dog food producer. I'm contributing in development of web services solutions for distribution, veterinary clinic and customer order managements in US, France and Japan countries.

iConec Wave - DxPathFinder
AWS, Java, Serverless, DynamoDB

DxPathFinder is an online digital performance cockpit. I provide web service solutions for project needs also with helping improving business calculations.

Kod Gemisi - Grispi >> https://grispi.com
Kotlin, Java, Micronaut, Hibernate, Docker, PostgreSQL, Hexagonal Architecture

Grispi is a CRM application like Zendesk. I improved and added new scenario tests, optimized code base, and developed web services for groups and tickets in application.

General Mobile - Android Applications
Kotlin, Java, Dagger, Retrofit, Picasso, MVVM, MVP, MVC

I developed Android applications which are still available and are used by millions in Google Play. The applications I contributed to development of new futures and bug fixes were GM Gallery GO, GM Music, GM File Manager, GM Voice Recorder and GM Assistant.

Pano | 2018 - 2022
SvelteKit, SASS, Kotlin, MariaDB, Vert.x

An open-source advanced gaming CMS for Minecraft community server website needs. It supports themes, addons and more features. I built with Kotlin, SvelteKit and previously Vue.
